Profile

Motivated MERN Stack Developer with a strong foundation in JavaScript and modern web technologies. Experienced in building projects like SastaMarket and Movieo, showcasing skills in full-stack development, problem-solving, and responsive UI design. Passionate about learning, collaboration, and building scalable web apps.

Skills

Frontend
HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap

Backend
Node.js, Express.js

Database
MongoDB, MySQL

Other Tools
Git, REST API, JWT Authentication, Postman

Certificates

React.js — HackerRank
Completed an assessment on React fundamentals, including components, hooks, and state management.

SQL — HackerRank
Learned database design, queries, and data manipulation using SQL fundamentals.

Node.js — The Linux Foundation
Gained hands-on experience with backend development, Express.js, and API creation.

MERN Stack Developer — Aarya Softex
Completed practical training in building full-stack web applications using MongoDB, Express, React, and Node.js.

Professional Experience

MERN Stack Intern
Aarya Softex
06/2025 – 08/2025 | Vadodara, Gujarat
- Worked on building and deploying full-stack web applications using React, Node.js, and MongoDB.

Content Creator
Noble University
12/2022 – 02/2023 | Junagadh, Gujarat
- Created promotional digital content for university events.
- Learned teamwork, creativity, and basic marketing.

Education

Master of Computer Applications (MCA)
Parul University
08/2025 – Present | Vadodara, Gujarat
Specializing in advanced full-stack development and cloud integration.

Bachelor of Computer Applications (BCA)
Noble University
07/2022 – 05/2025 | Junagadh, Gujarat
Focused on programming, web technologies, and database management.

Projects

SastaMarket (MERN Stack App) 🔗
Local Service Booking Platform
Developed a full-stack web application where users can book local services like plumber, carpenter, and painter. Implemented authentication using JWT and REST APIs with Node.js and Express.js. Integrated MongoDB for data storage and React.js for a dynamic frontend experience. Focused on responsive UI using Tailwind CSS and optimized user navigation with React Router.

Languages

- English

- Hindi

- Gujarati

- Sindhi

Movieo (React.js App) 🔗

Movie Search & Info Platform

Built a responsive web app using React.js that fetches movie data via API. Implemented search functionality, dynamic routing, and loading states for smooth UX. Styled using Tailwind CSS and optimized API calls using async/await.
